EXPERIENCE

FULL STACK WEB DEVELOPER

Marokug, Remote, Nigeria / March 2023 - Feb 2024

- **Increased student course completion rates by 20%** through collaboration with UI/UX designers to create a more user-friendly and engaging interface for the company's education platform.
- **Enhanced student participation and interaction by 15%** by implementing a **gamified learning experience** with points, badges, and leaderboards.
- **Developed and deployed the back-end infrastructure** for a new interactive assessment system, enabling efficient evaluation of student learning outcomes for a user base of 1832 students.
- **Optimized and scaled the company's database** to ensure smooth operation and **accommodate a 300% growth in users**, while **reducing API latency by 50%** through implementing caching mechanisms and optimizing database queries.

Lead Full Stack Web Developer

Jujora, Remote, Nigeria / July 2023 - June 2024

- **Designed and Coded an e-commerce platform** connecting farmers directly with buyers, **reducing middlemen costs by 25%** and **increasing farmer profits by 40%** within the first quarter.
- **Led a team of 4 developers**, resulting in a 40% increase in development velocity through optimized workflows and code reviews.
- **Reported directly to CPO:** Engineering lead for designing and developing the company's transaction dashboard that provides a rich visual summary of daily user purchase patterns powered by Google Chart. Used by the board of directors in the decision-making process.

PROJECTS

- **[Deeper Life High School \(Official Website\)](#):** Designed and developed an award winning website to enhance the school's online presence and digitalize processes such as admission, result management and student information system. (PHP, MySQL, Bootstrap, Ajax, Apache)
- **[Strender](#):** Created a comprehensive sports news website, consolidating sport-related news from various sources into one platform. (React JS, Redux, Django, Tailwind, PostgreSQL)
- **[Prod. Kayks Beat Store](#):** Engineered an e-commerce platform for a music producer to list and sell beats in one centralized location. Implemented SEO strategies to attract more customers, resulting in a 25% increase in sales and a broader customer base. (Next Js, Tailwind, MySQL)
